

Please do NOT enact or change any legislation that will weaken the State of Wisconsin's "no call" list. I already receive far too many solicitation calls from charity/non profit organizations. When over 80% of the people of our state chose to enroll in this program, it should be VERY clear that the people of this state (and most likely the entire country) prefer not to be solicited over their phones. It would be as sad indicator of who is running our country if the legislation should be enacted. "A government of the people, by the people, for the people", remember? The people have spoken. Now the only question remaining is, are you listening?
